## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 9-13 and 15-21 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the device for triggering a restraining device in a vehicle as recited in claim 9, which includes a modifying arrangement for modifying at least one threshold to which at least one crash signal is compared for the triggering of the restraining device, as a function of a vehicle velocity, a subdividing arrangement for subdividing the vehicle velocity into a predefined class as a function of a magnitude of the vehicle velocity and then for modifying the threshold as a function of the class and a comparing arrangement for comparing the signal of the at least one remote sensor to a plausibility threshold. The plausibility threshold lies below a trigger threshold for generating a crash signal of the at least one remote sensor. The vehicle velocity is being taken into consideration in the triggering of the restraining device as a function of the comparison. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
